ABOUT THE STATE

There are now 28 patients at the
Pittsford sanatorium undergoing treat-
ment. The sanatorium is not quite full.

There are at present 2,900 pupils in
the Rutland public schools, an increase
of 41 over last year, and nearly all of
the increase is credited to the high
school.

Russell E. Brown, the 15 year old
son of Mr. and Mrs. W. D. Brown of
St. Johnsbury, suffered a fracture of
the left arm at the elbow while playing
on the common during recess recently.

The receipts of the post office at Ben-
nington for the quarter ending Sept. 30
were \$992 in excess of the same period
last year. The receipts of the office are
steadily growing in all departments.

A sewer cleaning apparatus will be
purchased by the City of Burlington of
a firm in Turners Falls, Mass. The ap-
paratus will cost \$350, but is expected
to save a large amount in preventing
the pipes from becoming clogged.

In a recent football game the Bellows
Falls Free academy tied the St. Albans
high school team in a rough game at
Fairfax. Capt. Leary of the St. Al-
bans team sustained a broken collar
bone.

A. C. Wyman of East Burke ac-
cidentally shot himself Monday morning
as he was getting out of his wagon at
West Burke the gun he was carrying
discharged. He was taken at once to
the Brightlook hospital at St. John-
sbury.

So rapid is the development of the ir-
rigated regions that the country has
more of a suburban than rural ap-
pearance. The farms are 40 to 80 acres,
and are so laid out that from 8 to 10 farm
houses line each mile of the main high-
ways, giving plenty of neighbors and
creating social conditions which even to-
day are unknown in many other set-
tled sections of the East and Middle
West.

The healthfulness and charm of these
valleys, the abundant and certain crops,
the nearly ideal conditions of social
life and the assurance of an indepen-
dent living should cause a marked de-
cline in the undesirable exodus of car
good citizens to Canada. The Reclama-
tion Service at Washington, D. C., the
bureau which is promoting the work,
is endeavoring to acquaint the public
with the manifold advantages of our
irrigated West. Inquiries addressed to
the statistician will receive prompt at-
tention.

At a recent meeting of the Co. D. bas-
ket ball association plans for next win-
ter team were discussed. The commit-
tee have received offers from the Wach-
er brothers who would like to manage a
team in St. Johnsbury. Patrick Doyle
another well-known player has also
been heard from.

Edward C. Cochrane died at his home
in Manchester Center last Monday
night of paralysis of the bowels. Mr.
Cochrane was general superintendent
of the Postal Telegraph Cable Co., un-
til his retirement in May, 1908 when he
moved from New York to Manchester
Center.

SAID TO HAVE SEPARATED.

Mrs. Chance in London. He is in New
York.

New York, Oct. 8.—Mrs. Van Ren-
selaer Cruger-Chance, wife of Wade
Chance, writer and member of New
York's most exclusive society, has parted
from her youthful husband. She is
now making her home in London, while
young Chance has returned to New
York and is employed in the office of a
broker in the financial district.

"There has been a separation," young
Chance is reported to have said yester-
day afternoon as he looked over the
files in the office of H. Contee & Co.,
50 Broadway. "But I must not talk
about it, for I want nothing in the
newspapers."

Word soon got around that the couple
had separated, and Chance was ques-
tioned again at the hotel St. Regis. "It
is a matter I cannot discuss," Chance
answered. "Mrs. Chance is in London
and that is all I care to say on the
subject. I will neither affirm nor deny
the reports, for they relate to purely
personal matters."

Mr. Chance and Mrs. Cruger were
married 17 months ago, the event caus-
ing a good deal of surprise among the
bride's friends in this city and New
port. Chance is about 15 years younger
than his wife, and until the marriage
was announced in Washington he was
not even known to have been attentive
to the wealthy widow.

Mrs. Chance's first husband, Col. Cra-
ger, was a man of large wealth and
was controller of Trinity corporation.
Since her marriage to Mr. Chance the
couple have lived in London, and it was
only last March that Mrs. Chance was
presented at court by Ambassador
Whitehead Reid, which gave her a firm
footing in high-class English society.

KILLS WIFE IN DRY GOODS STORE.

Angered Because She Would Not Cele-
brate Wedding Anniversary.

Kokomo, Ind., Oct. 8.—Because his
wife, from whom he had been separated,
refused to return and celebrate their
21st wedding anniversary, William
Robinson, of this city, shot and instan-
taneously killed her. He followed her to a
dry goods store and in the presence of
over 100 lady customers and clerks,
slaw her.

Robinson was arrested. He carries a
bullet in his own head received 33 years
ago, when his father, David Robinson,
killed his wife and four children and
himself, this son being the only sur-
vivor of the family.

GOLD CUPS FOR TAFT AND DIAZ.

They Will Be Presented by the Citizens
of El Paso.

El Paso, Tex., Oct. 8.—The citizens
of El Paso will present President Taft
and President Diaz with loving cups
when they meet here on the 10th. The
cups will be of solid 18 karat gold and
will be duplicated. Each will bear the
coat-of-arms of both Mexico and the
United States and inscriptions. John E.
Wilkie of the United States secret ser-
vice arrived Wednesday night and with
his lieutenant, L. C. Wallace, is in con-
sultation with local committee of Juar-
ez and El Paso. The work of decorating
the city has begun. The flags of both
nations are being used elaborately. The
Hotel Sheldon, which will be Mr. Taft's
official headquarters, is decorated from
dome to sidewalk.

DICKINSON NOT TO RESIGN.

The Secretary of War Makes Denial of
the Report.

Nashville, Tenn., Oct. 8.—Secretary of
War J. M. Dickinson has denied the re-
port that he contemplates resigning from
the cabinet because of illness in his family
and the recent death of his daughter-in-
law.

EDISON PLANT
ROTARY BURNING KILNS
CAPACITY 100 TONS

Rotary kiln, 6 feet diameter and 150 feet long—longest in the world—
burns the pulverized rock uniformly and perfectly. Then specially designed
Edison machinery pulverizes the "clinker" into the cement that is
Uniformly 10% Finest Ground in the World.

CURE FOR DRUG HABIT.

Dr. Lambert Makes Startling Announcement.

New York, Oct. 8.—The announcement
made by Dr. Alexander Lambert of 36
East Thirty-first street, visiting physi-
cian at Bellevue hospital and professor
of clinical medicine at the Cornell medi-
cal college, that he has at last discovered
a speedy cure for the drug habit and
alcoholism has aroused much public in-
terest. Men of his profession are par-
ticularly interested. "The obliteration
of the craving for narcotics is not a
matter of months or weeks," said Dr.
Lambert, "but is accomplished in less
than five days. The result is often so
dramatic that one hesitates to believe
it possible."

The physician says he obtained the
specific about five years ago from Charles
R. Towns of 119 West Eighty-first street,
who spent some years in China study-
ing opium cases among the hospitals
there. Since that time he has been ex-
perimenting with it extensively in his
practice at Bellevue. Here is the speci-
fic.

"Fifteen per cent. tincture of bella-
donna, the fluid extract of xanthoxylum
(prickly ash), and the fluid extract of
hyoscyamus, mixed in the certain pro-
portions."

The cure, according to Dr. Lambert,
can be effected with a minimum of suf-
fering, and no matter how long the pa-
tient has been addicted to the habit, or
in what quantities he has been accus-
tomed to take drugs, he will be placed
in the same attitude toward them as
before he fell into the habit. His health
will be in no way impaired by the treat-
ment or the deprivation of the drugs.
Some about seventy all desire being
eliminated, self-confidence is restored to
the patient, and his system adjusted to
do without it. One way in which this
treatment differs from all others is that
while the specific is being administered,
the drug of which the patient is a victim
is still taken. For this reason practically
all suffering is absent.

KILLS 750,000 PRAIRIE DOGS.

Holman Says He Will Get 1,500,000
More—Bounty on Each.

Kansas City, Oct. 8.—More than 750,
000 prairie dogs have been killed by J.
V. Holman, the officially recognized
United States government poisoner of
the pests in the southwestern states,
during the last eight months, and Mr.
Holman is not through yet. He is here
now obtaining a new supply of strychnine
and will start out on a second cruise
within a few days.

"I am going to kill at least 1,500,000
dogs during the next eight months," said
Mr. Holman. Strychnine is mixed with
wheat and about a teaspoonful placed at
the entrance of a prairie dog hole. Each
casualty kills three dogs, says Holman.
The government pays one and one-half
cents a head for killing the dogs.

CONSPIRACY TO RESTRICT COAL SUPPLY.

Nine Workers Take Action Against
Dominion Coal Company.

Halifax, N. S., Oct. 8.—Upon charges
of conspiracy to restrict the supply of
coal in Nova Scotia and thereby to raise
prices of coal unreasonably, summons-
es were issued here yesterday for the
appearance in court of Alexander Dick,
sales agent of the Dominion coal com-
pany, and John B. Cowans, manager of
the Spring Hill Coal company.

The charges were brought by James
B. McLaughlin, secretary treasurer of
the Nova Scotia branch of the United
Mine Workers of America.

Mother's Milk

will supply the

baby laxative enough, if

she takes a candy Cascart.

And the laxative will be natural,

gentle, vegetable—just what baby

needs. Try one and you'll know

why millions of mothers use

it.

West-pocket box, 10 cents—at drug stores.

People now use a million boxes monthly.
